Rainawari Srinagar 190003

Study Tour Report: Zoology and Botany Department of Vishwa Bharti College Rainawari Srinagar

Date: 5th November 2024

Objective: The primary aim of the study tour was to explore and study biodiversity in a natural environment.

On 5th November 2024, the Zoology and Botany departments of Vishwa Bharti College Rainawari Srinagar went on a study tour to explore biodiversity, accompanied by Prof. Qunser Parveen, Prof. Asifa Qadri, Prof. Ronika Yousuf, and Dr. Tajamul Islam. The tour aimed to provide students with hands-on learning experience in a natural environment. During the tour, students conducted field observations, collected samples of various plant and animal species, and participated in interactive sessions with the faculty of zoology and Botany department. Professors provided on-site lectures discussing the ecological significance of the species observed and the importance of biodiversity. Key findings included identifying numerous plant and animal species, as well as gaining insights into ecosystem dynamics. The study tour was highly educational and successful in providing students with a hands-on learning experience about biodiversity. The participation of the professors significantly enhanced the learning outcomes, making it a memorable and informative trip for all involved.
